1999 Analytical Review DWCCA-1160-ELE

Dear Mr. Albert:

The Public Service Commission has completed their analytical review of your 1999 annual report. The primary purpose of our analytical review is to detect possible accounting related errors and to identify significant fluctuations from prior year's data, which are not sufficiently explained in the footnotes of your annual report. We have no questions, only the following comments.

1. During our review, we noted that meters were not tested in 1999. A footnote to this schedule indicates the utility is aware of the Wisconsin Administrative Code regarding meter test intervals. Please make every effort to test meters within Code intervals (or replace meters).

2. A footnote to Page F-21 indicates the schedule "doesn't work." There is an upgrade to the program that "fixes" the gray screen caused in some programs for the Important Changes During the Year schedule. If your preparer has problems with the schedule when completing the 2000 report, the fix should be obtained from the PSC.

You may consider your review closed. Thank you for your efforts in preparing your 1999 annual report. If you have any questions, please feel free to contact me at (608) 266-3768.

Sincerely,

Elaine Engelke  
Financial Specialist  
Division of Water, Compliance, and Consumer Affairs
